PAPPLEWICK PARISH COUNCIL

Financial Risk Management Policy

Papplewick Parish Council is committed to identifying and managing risks, using the following procedures, and to ensuring that risks are maintained at an acceptable level. Any action that is felt necessary will be taken by Papplewick Parish Council.

The Clerk will review risks on a regular basis, including any newly identified risks, and will report to the Council. The review will include identification of any unacceptable levels of risk.

The Local Councils Governance and Accountability Guidance makes the following observations regarding risk management.

1. Risk management is not just about financial management: it is about setting objectives and achieving them in order to deliver high quality public services.
2. The new approach places emphasis on local councils strengthening their own corporate governance arrangements, improving their stewardship of public funds and providing assurance to taxpayers.

It goes on to make the point that Councillors are ultimately responsible for risk management because risk threatens the achievement of policy objectives. Members should, therefore –

- a) take steps to identify key risks facing the Council,
- b) evaluate the potential consequences to the Council if an event identified as a risk takes place,
- c) and, decide upon appropriate measures to avoid, reduce or control the risk or its consequences.

To identify the risks facing a council, the Guidance recommends beginning by grouping the three main types of decisions that have to be taken into the following areas:

- i) Areas where there may be scope to use insurance to help manage risk
- ii) Areas where there may be scope to work with others to help manage risk
- iii) Areas where there may be need for self-managed risk.

SECTION 1
